

DESCRIPTION

- Appropriate for mature idle or lightly worked horses who do not maintain adequate body condition on forage and ration balancer (such as All-Phase) alone.
- Scientifically formulated to provide optimal trace mineral and vitamin fortification in a highly palatable formula that provides just enough additional calories for most pleasure-type horses.
- Moderately low calorie / very low fat / moderate fiber / textured.
- Features SuperFlake® corn, barley and oats for superior nutrient availability and palatability.

Main ingredients

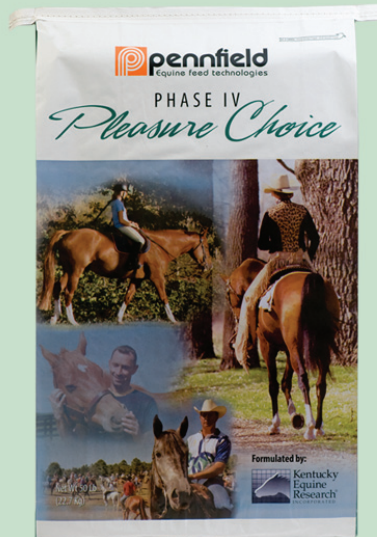

Fortification & Fermentable Fiber Pellets
 SuperFlake® Barley
 SuperFlake® Corn
 Steam-Crimped Oats
 10% Molasses
 0.5% Soybean Oil

Fully fortified with KER Micronutrients including

Natural-source Vitamin E
 Organic selenium
 Chelated trace minerals
 B Vitamins
 Yeast culture

Ingredients

SuperFlake® Barley, SuperFlake® Corn, Wheat Middlings, Steam-Crimped Oats, Soybean Hulls, Cane Molasses, Soybean Meal, Dehydrated Alfalfa Meal, Calcium Carbonate, Dicalcium Phosphate, Monocalcium Phosphate, Soybean Oil, Salt, Propionic Acid (a preservative), Yeast Culture, Lignin Sulfonate, Vitamin E Supplement, Magnesium Oxide, Zinc Sulfate, Zinc Proteinate, Vitamin D3 Supplement, Vitamin B12 Supplement, Vitamin A Supplement, Thiamine Mononitrate, Sodium Selenite, Riboflavin Supplement, Pyridoxine Hydrochloride, Niacin Supplement, Mineral Oil, Menadione Sodium Bisulfite Complex, Manganese Sulfate, Manganese Proteinate, Folic Acid, Ferrous Sulfate, Ethylenediamine Dihydroiodide, Dried Kelp, Copper Sulfate, Copper Proteinate, Cobalt Sulfate, Choline Chloride, Calcium Pantothenate, Biotin, Artificial Flavors, Selenium Yeast.

FEEDING DIRECTIONS

Amounts listed are total daily recommended intake of this feed, by size of horse (pony, average, large) and level of work. Make feed changes gradually over a period of 7-10 days.

Size of Horse	Pony (400-600 lb)	Average (1000-1200 lb)	Large (1400+ lb)
Idle	3.0 to 4.0 lb	6.0 to 8.0 lb	7.0 to 9.0 lb
Light Work	4.0 to 6.0 lb	8.0 to 10.0 lb	9.0 to 12.0 lb

Generally horses do best with concentrate meals split into 2 or more feedings per day, limiting individual meal size to 0.5 lb per 100 lb body weight. Feed in combination with a minimum of 1.0 - 1.5 lb of good-quality forage per 100 lb body weight per day. Allow free-choice access to fresh, clean water and salt.

SAMPLE DIET

- Weight: 1200 lb
- Activity: Idle
- Pleasure Choice: 6 pounds daily
- Grass Hay: 15 pounds daily
